

## FINANCIAL RESPONSIBILITY UNDERSTANDING NO FAULT AUTO INJURIES

If your injuries and treatment relate to an auto accident, we will work with you to have our bills paid directly by your insurance carriers.

In many auto cases, it can take three months or more to begin to be reimbursed by the insurance company. This is especially true if you bought coordinated medical coverage to reduce your auto premium.

Once we verify your coverage, we will do the following:

Bill your health insurance carrier.

Balance billed to your auto carrier.

Cooperate with your attorney in collection of benefits, if you have an attorney.

Waive direct collection from you unless:

The insurance information you gave us is wrong.

You settle your case without paying our bills.

The balance owed exceeds \$5,000. (We will continue to carry the balance until the case is resolved, if you make co payments of \$35 per treatment for treatments rendered from that date forward.) These co pays will be reimbursed to you by the insurance company when they reimburse us.

If the balance owed for treatment reaches \$10,000, agreements must be arranged to limit our unpaid exposure to \$10,000 or less.
